

FEMA Profile

DR Declarations Since 2000

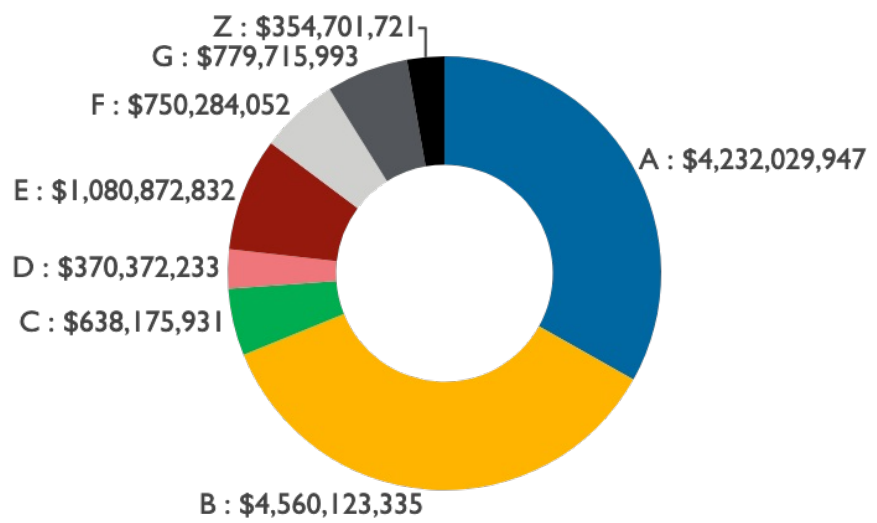

● Select Critical Infrastructure

\$12,766,276,044

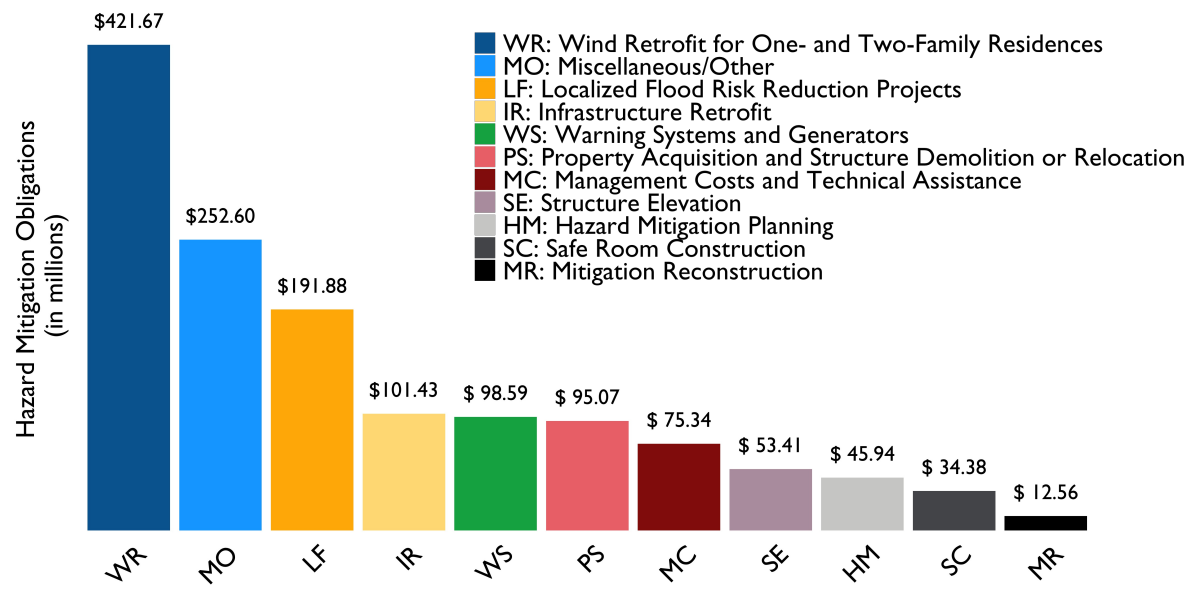

Public Assistance Obligations Since 2000

\$1,382,859,885

Hazard Mitigation Obligations Since 1998

Public Assistance Obligations by Category of Work

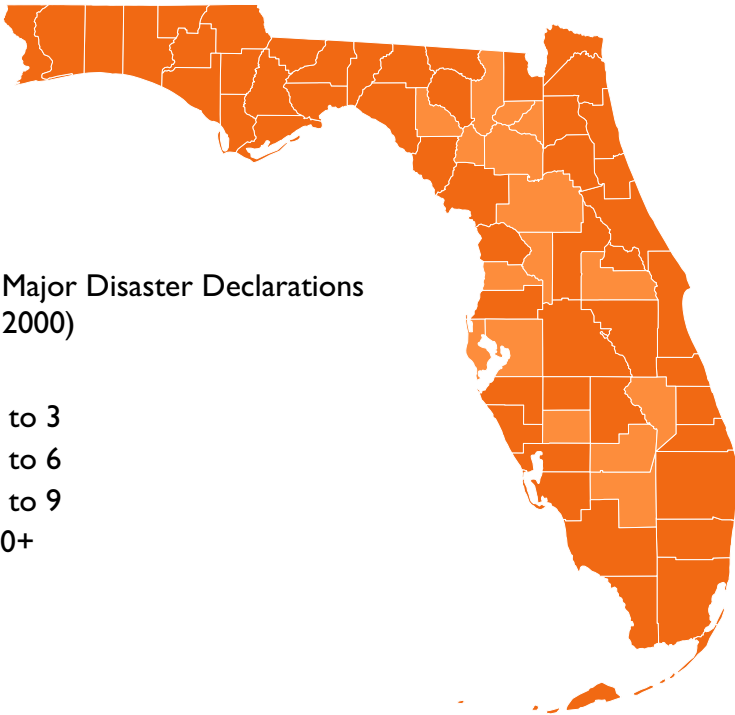

Hazard Mitigation by Project Type

- WR: Wind Retrofit for One- and Two-Family Residences
- MO: Miscellaneous/Other
- LF: Localized Flood Risk Reduction Projects
- IR: Infrastructure Retrofit
- WS: Warning Systems and Generators
- PS: Property Acquisition and Structure Demolition or Relocation
- MC: Management Costs and Technical Assistance
- SE: Structure Elevation
- HM: Hazard Mitigation Planning
- SC: Safe Room Construction
- MR: Mitigation Reconstruction

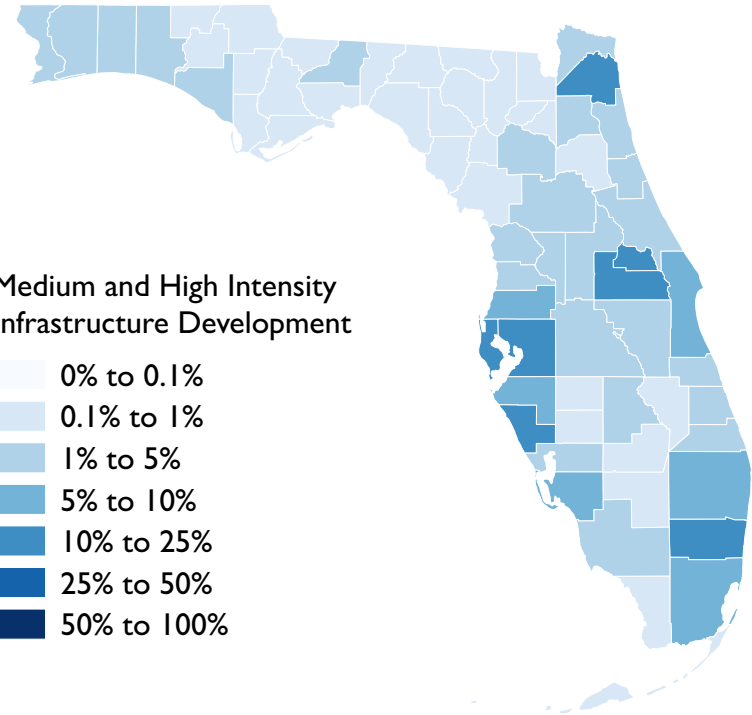

[1] Winter weather includes severe ice storms, snow, and freezing
 [2] Other includes dam/levee break, mud/landslide, terrorist, tsunami, and other

Mitigation Factors

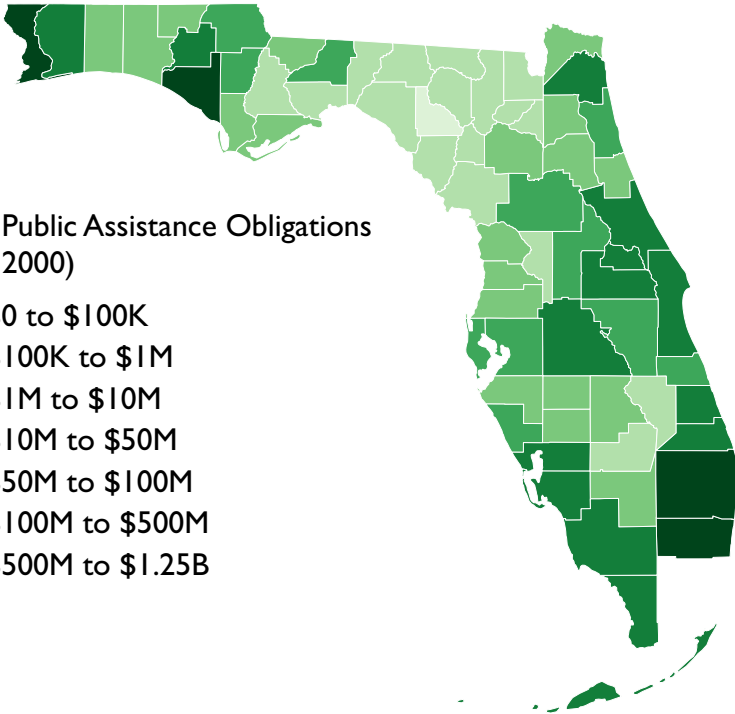

FEMA Major Disaster Declarations
(Since 2000)

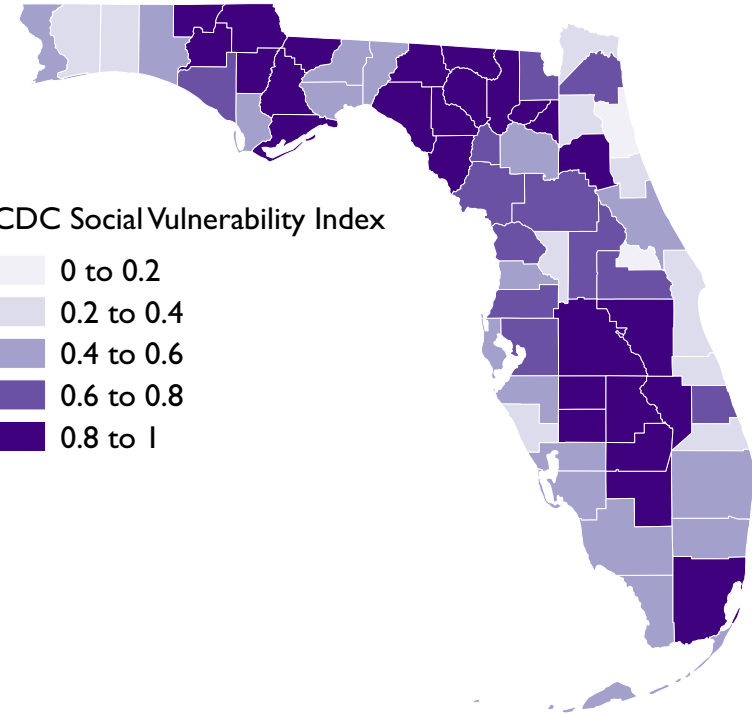

Medium and High Intensity
Infrastructure Development

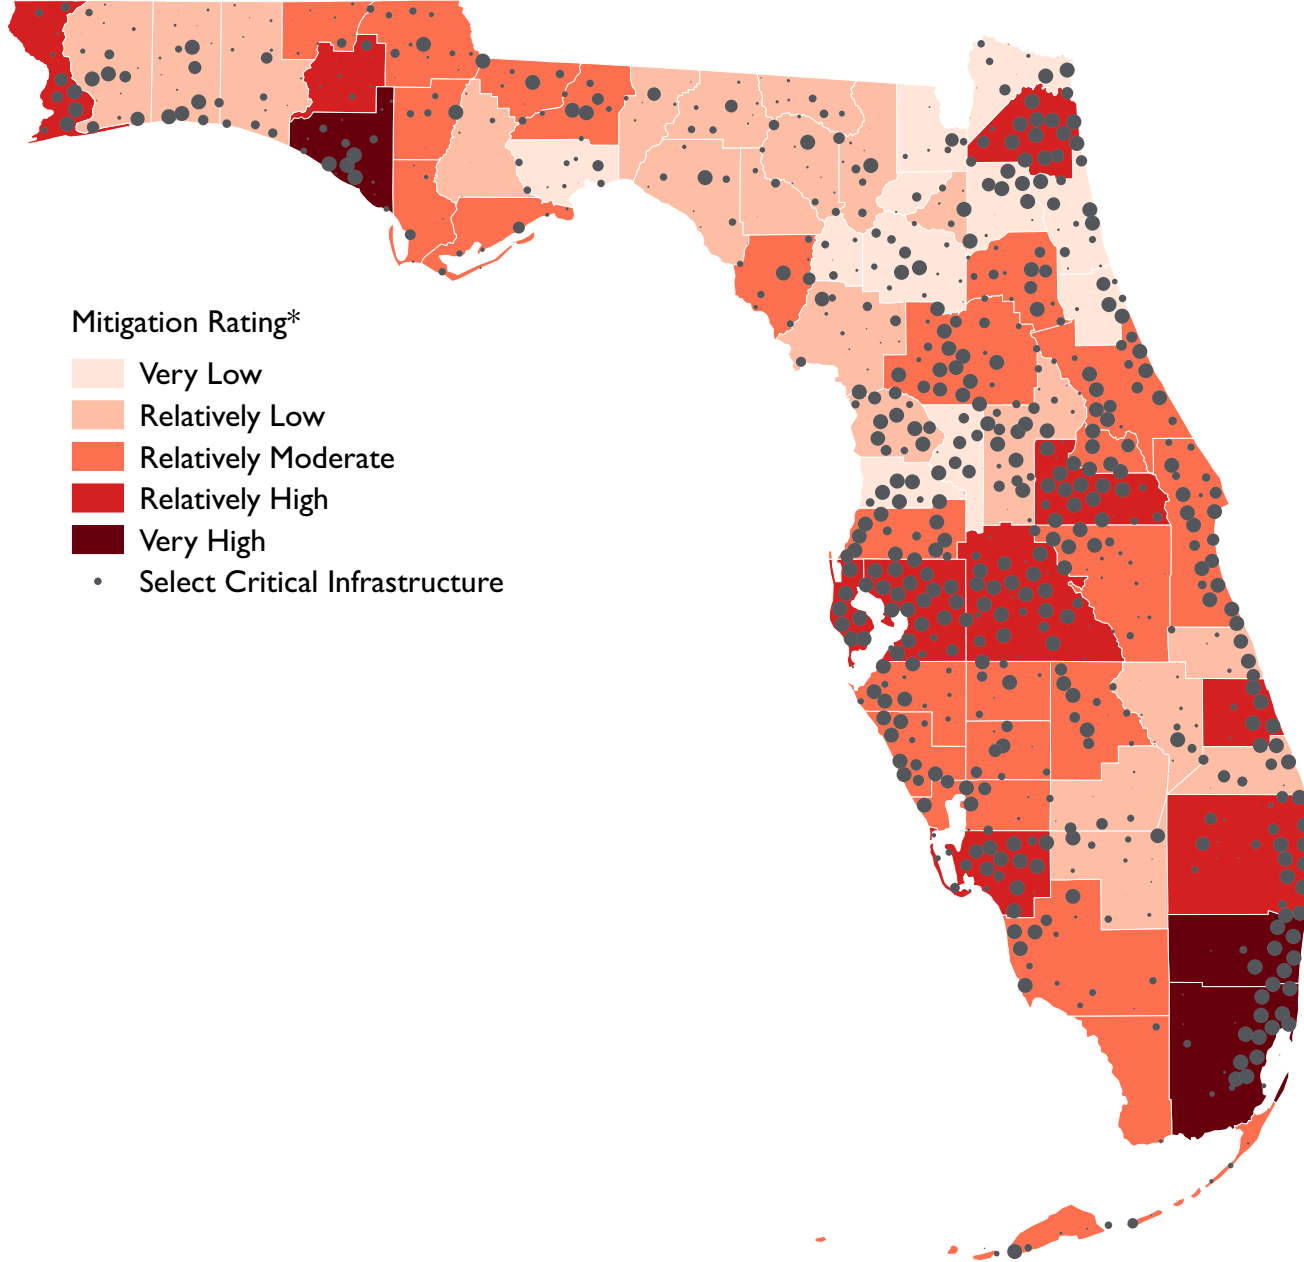

FEMA Public Assistance Obligations
(Since 2000)

CDC Social Vulnerability Index

Composite Mitigation Rating and Score

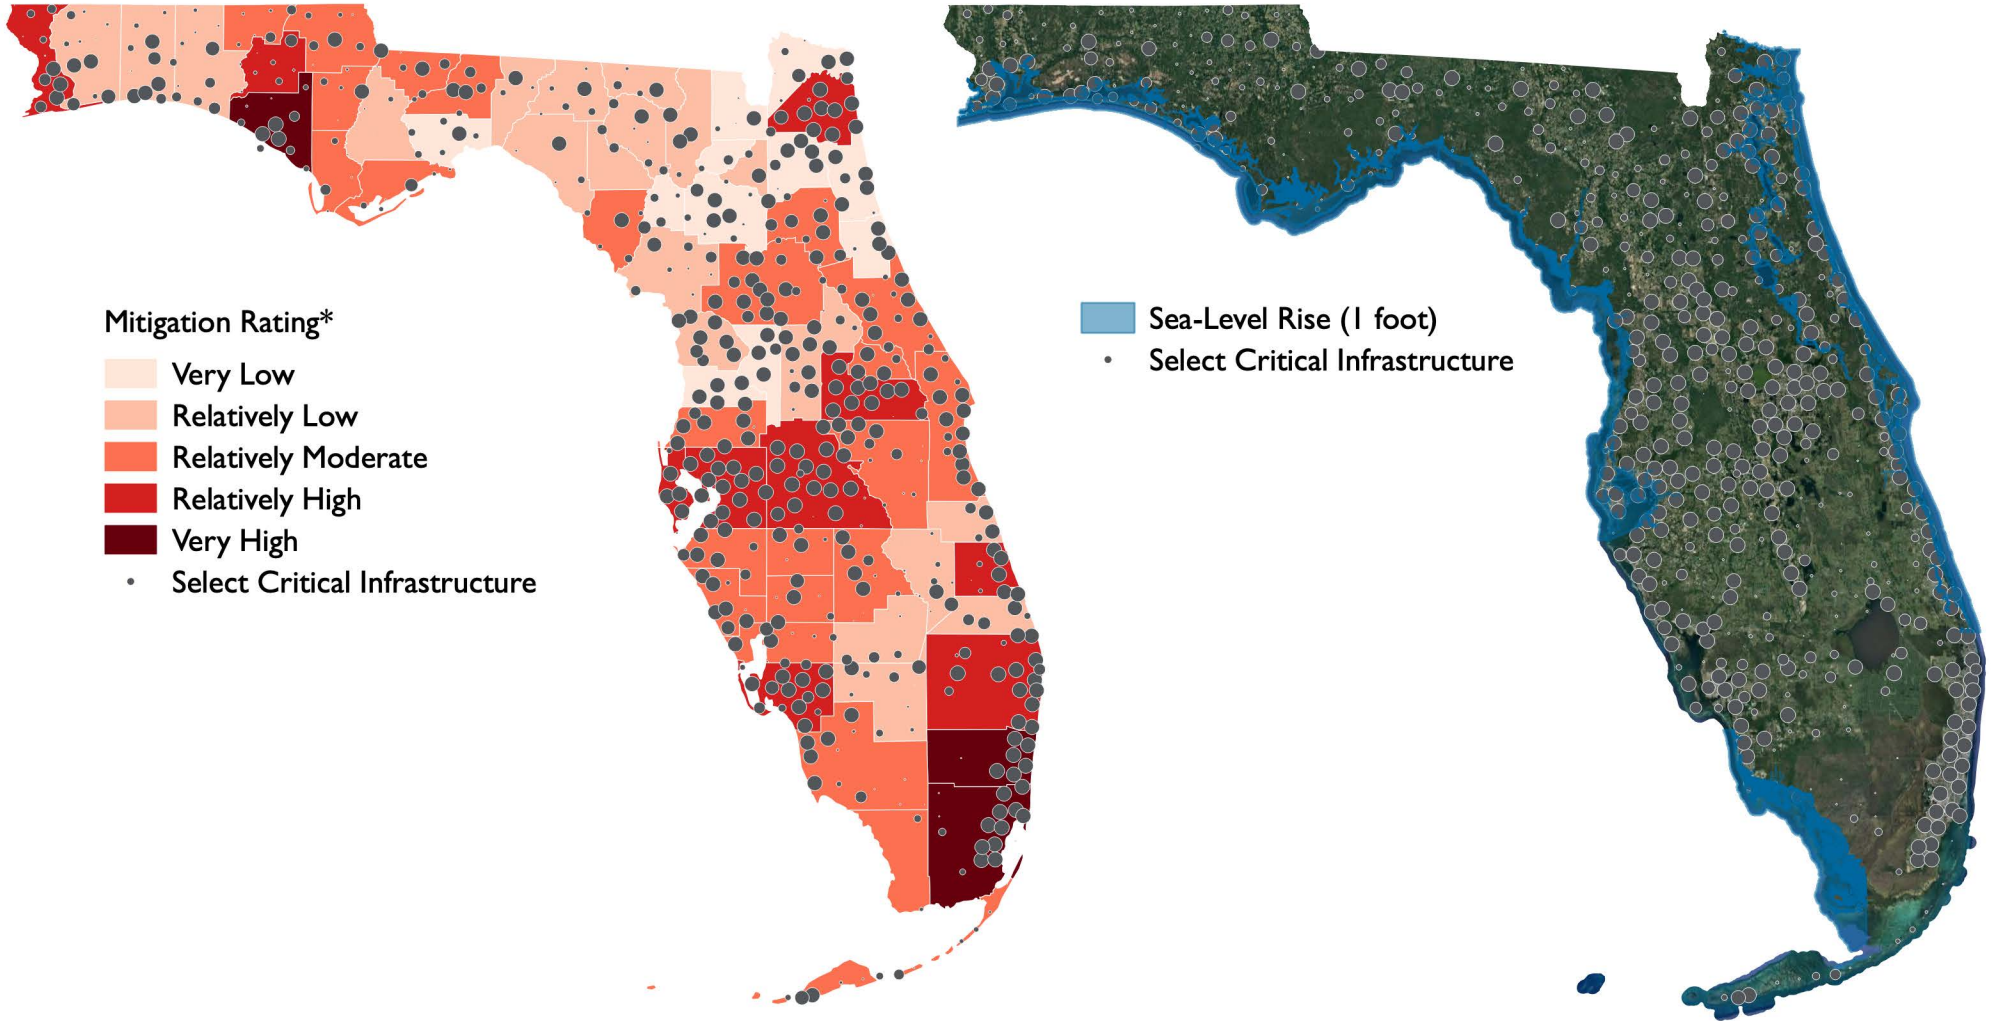

Top 20 Counties by Mitigation Score*

County	Mitigation Score
Miami-Dade	100
Broward	85
Bay	84
Palm Beach	71
Duval	70
Orange	69
Escambia	66
Pinellas	63
St. Lucie	59
Polk	57
Lee	57
Washington	56
Hillsborough	55
Volusia	52
Collier	49
Calhoun	49
Osceola	46
Gadsden	45
Franklin	44
Jackson	44

* Mitigation Score calculated using the following factors and weights:
 $50\% * (25\% * \text{Declarations} + 75\% * \text{Obligations}) + 25\% * (\text{Infrastructure Development}) + 25\% * (\text{Social Vulnerability})$

Composite Mitigation Rating and Hazard Overlay with Critical Infrastructure

* Mitigation Score calculated using the following factors and weights:

$50\% * (25\% * \text{Declarations} + 75\% * \text{Obligations}) + 25\% * (\text{Infrastructure Development}) + 25\% * (\text{Social Vulnerability})$

Data Sources: Federal Emergency Management Agency, Homeland Infrastructure Foundation-Level Data, US Census Bureau, National Oceanic and Atmospheric Administration

Date Last Updated: March 7, 2022

Composite Mitigation Rating versus FEMA NRI Rating

* Mitigation Score calculated using the following factors and weights:
 $50\% * (25\% * \text{Declarations} + 75\% * \text{Obligations}) + 25\% * (\text{Infrastructure Development}) + 25\% * (\text{Social Vulnerability})$
